IN MEMORY

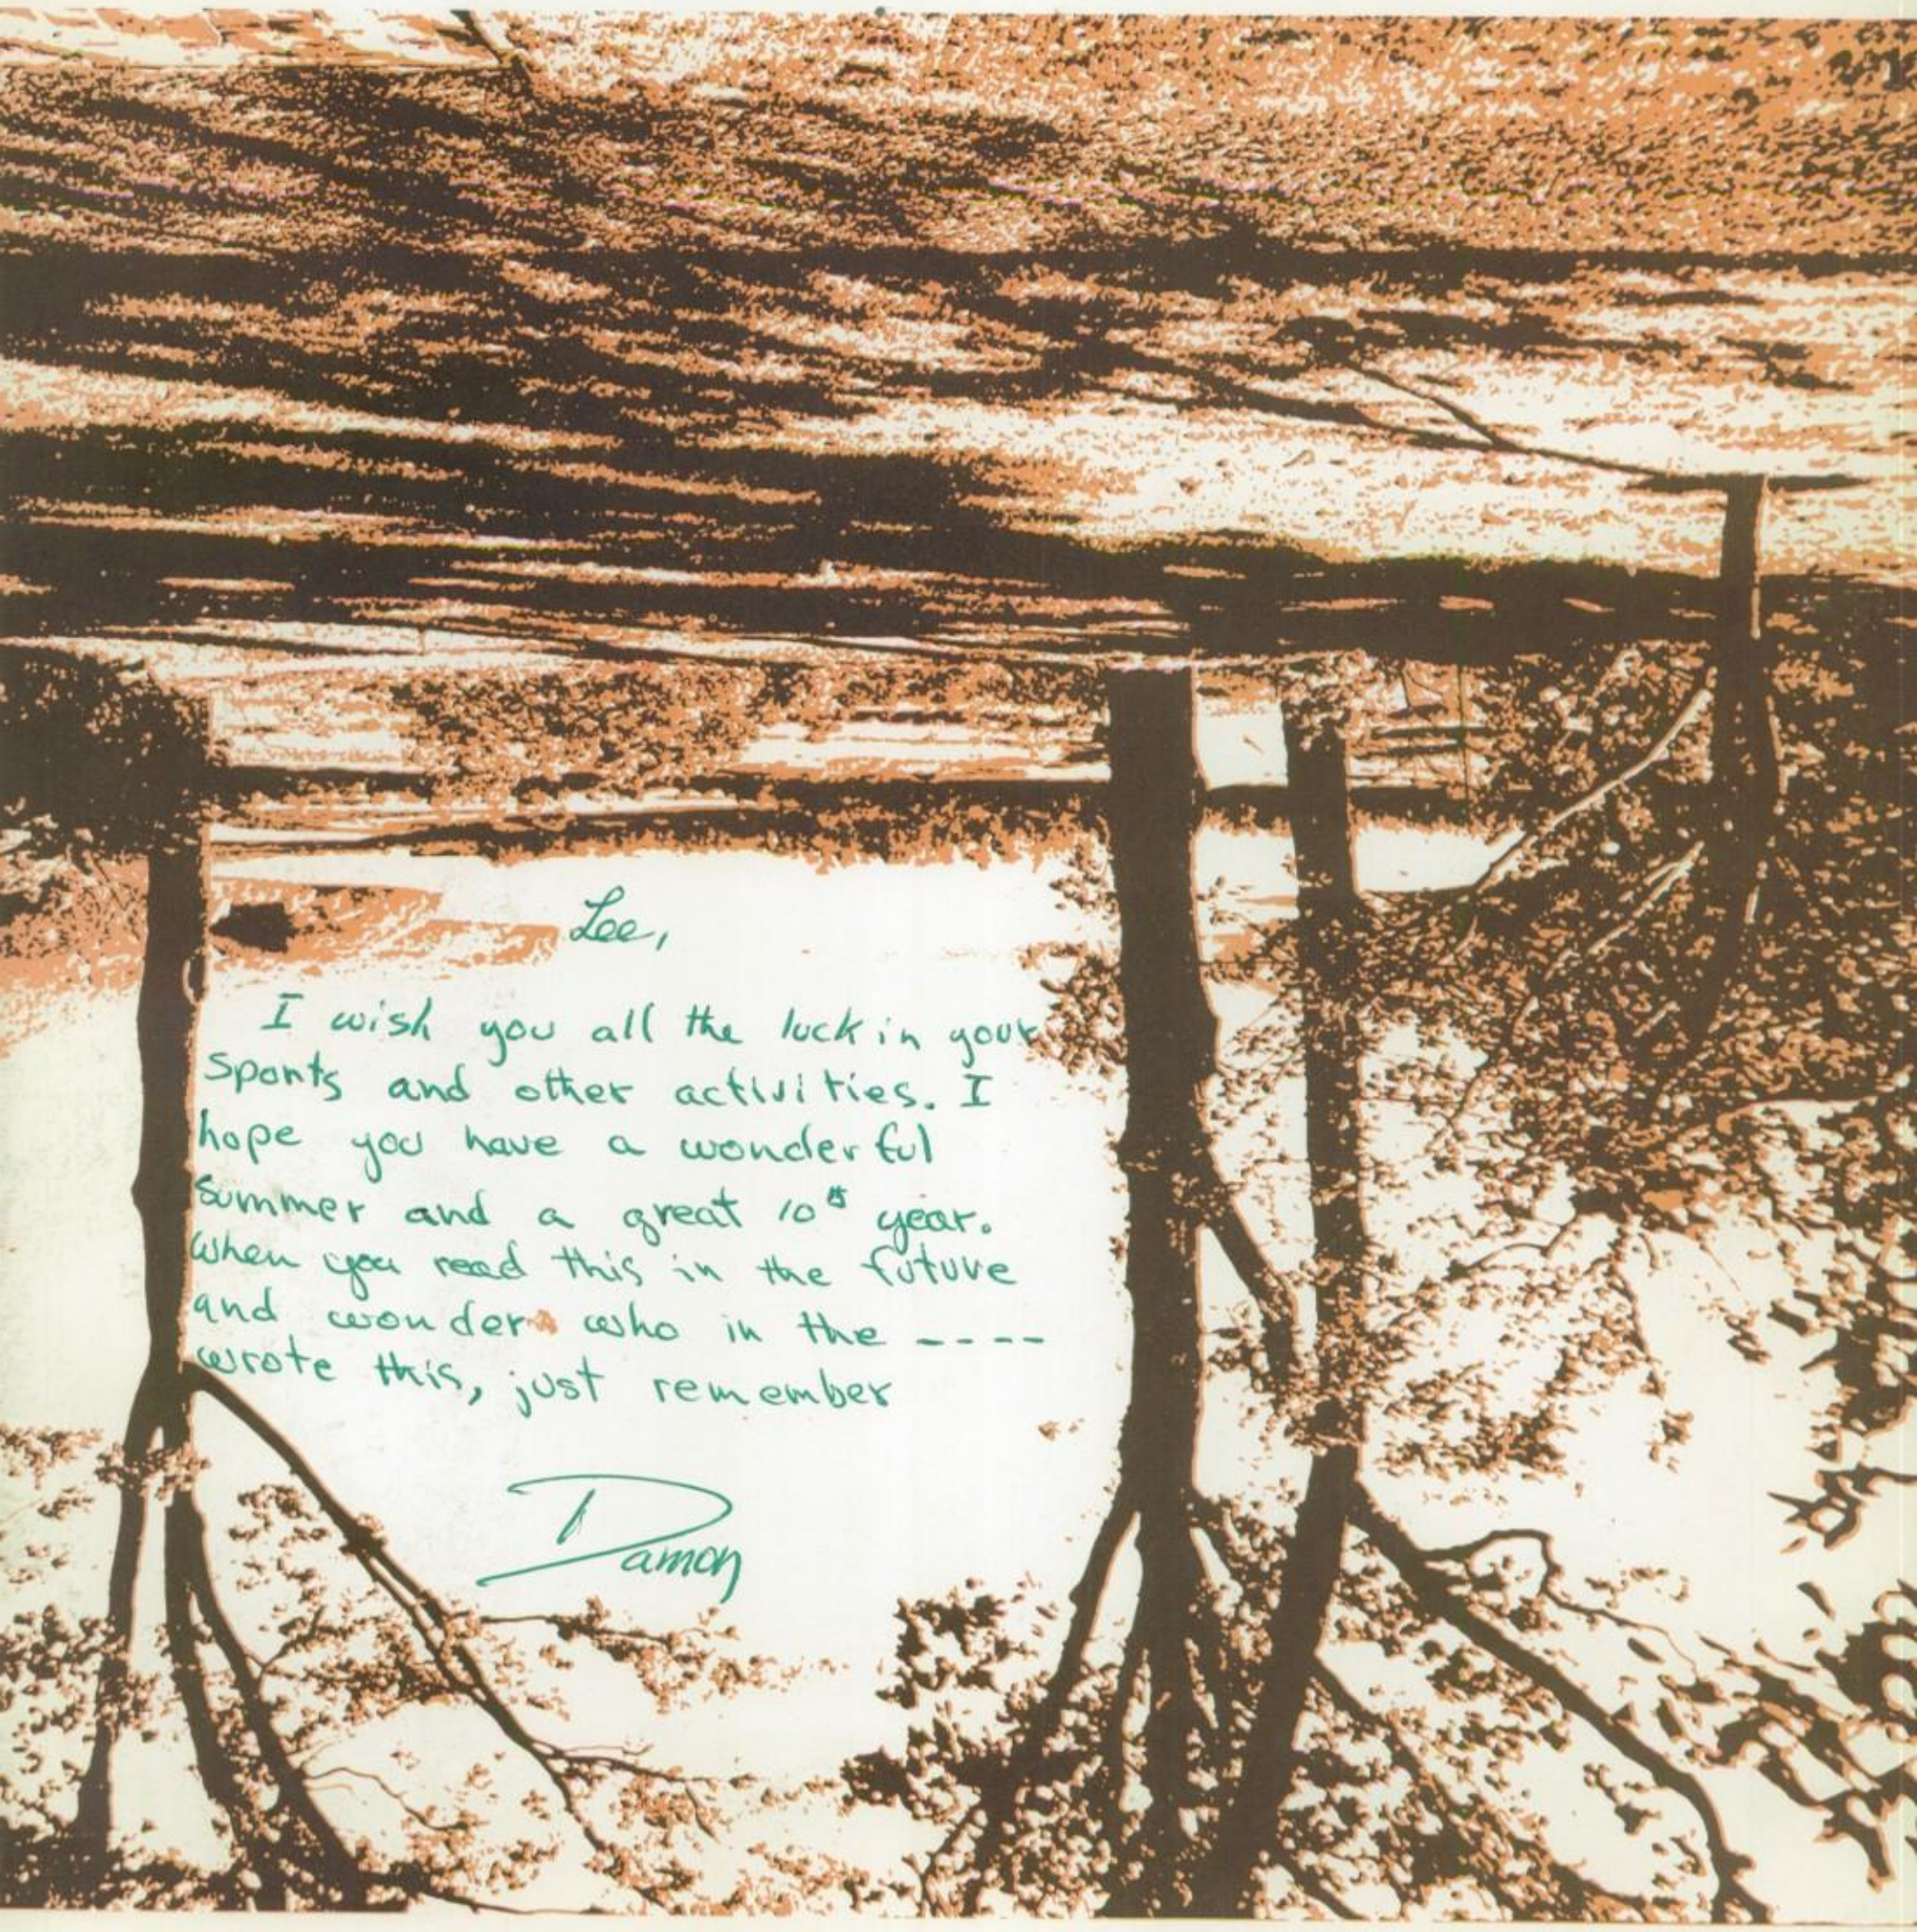
Douglas Mowbray

"So nigh is grandeur to our dust,
So near is God to Man,
When Duty whispers low, "Thou Must",
The Youth replies, "I can."

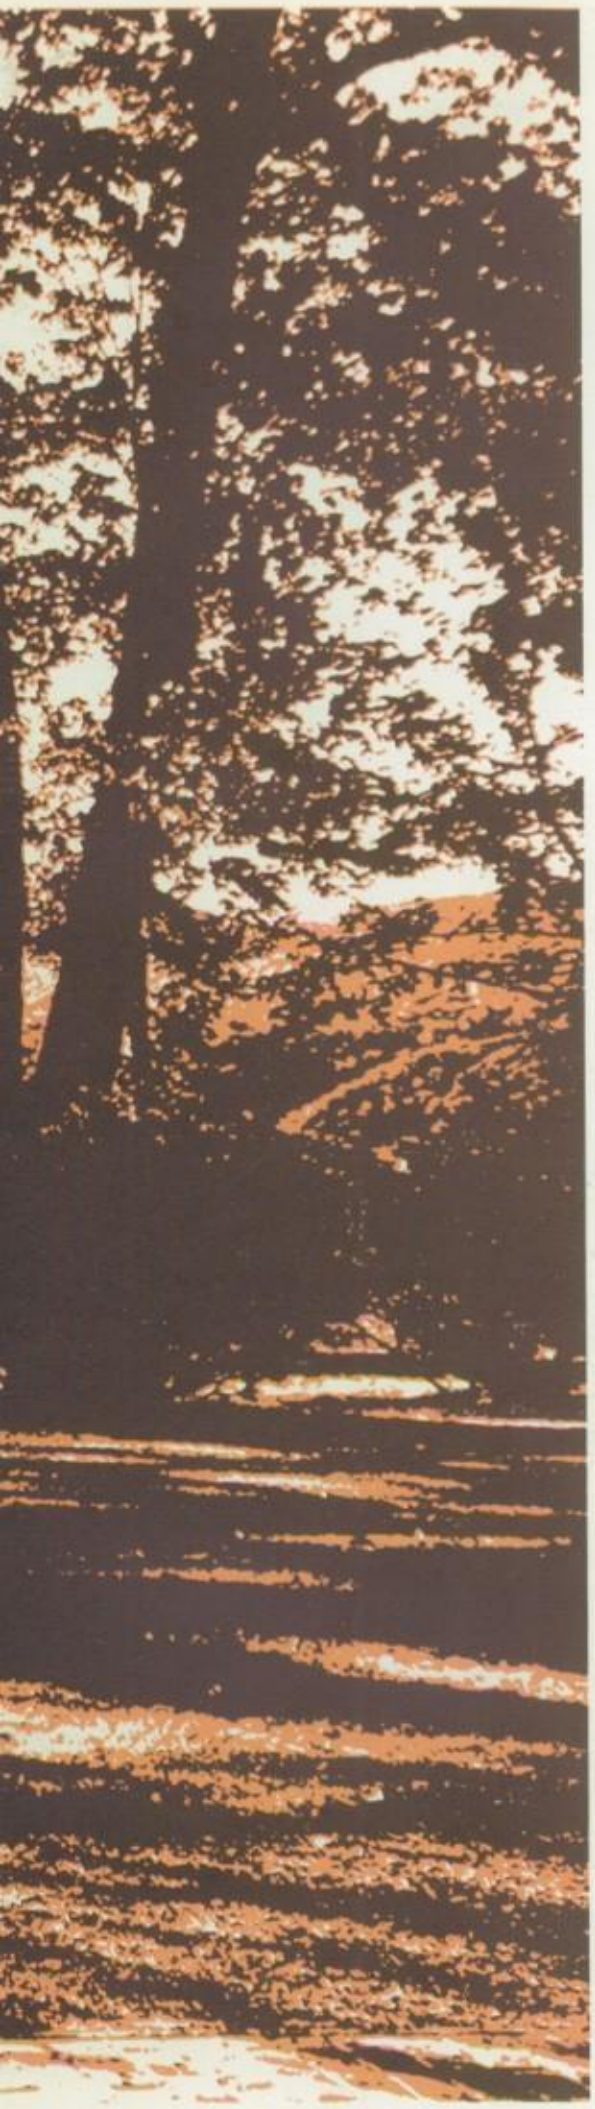
—Ralph Waldo Emerson

We respectfully dedicate this book to the young men and women of Hendrick Hudson High School risking their lives in the service of our country in all parts of the world.

HENDRICK HUDSON HIGH SCHOOL



Lee,
I wish you all the luck in your sports and other activities. I hope you have a wonderful summer and a great 10th year. When you read this in the future and wonder who in the ---- wrote this, just remember
Damon



The sky descended in billows of mist, the unending columns of clouds pressing earthward. A great golden ball of fire hung low in the sky. A wall of nothing at the world's last edge . . . the burning solar glow . . . a gray sea in dawn's flush of colors . . . Suddenly from the hidden waters something loomed in the distance. From all quarters of a shallow-bottomed vessel came a joyous cry of recognition: "Land ho!"

Thus, on September 2, 1609, the men of the Half Moon discovered the Hudson River—the gateway to a new continent, the answer to man's dreams and aspirations. "It is as pleasant a land as one can tread upon," wrote Robert Juet, an officer of the boat. Twelve days later, Hudson's boat glided past the highlands, past the land upon which our school now stands, northward bound until it could go no farther.

Discovery and exploration have always played an important role in the history of mankind. Without the knowledge and courage to delve into the realms of this world would cease. Education, like exploration, is a source of knowledge—the mysteries of life abound and the answers await the questioning mind of an eager student.

Hendrick Hudson High School stands as a sentinel of the past, present, and future, ready to assume the responsibilities for preparing the youth of this community with mature minds, capable of reasoning and understanding. The future of mankind rests on today's youth—the leaders and explorers of tomorrow.

The torch of hope and discovery still burns, and because it does, there remains for all of us the chance to light up the tomorrows and to brighten the future. For us students, that is the challenge that makes life worthwhile.

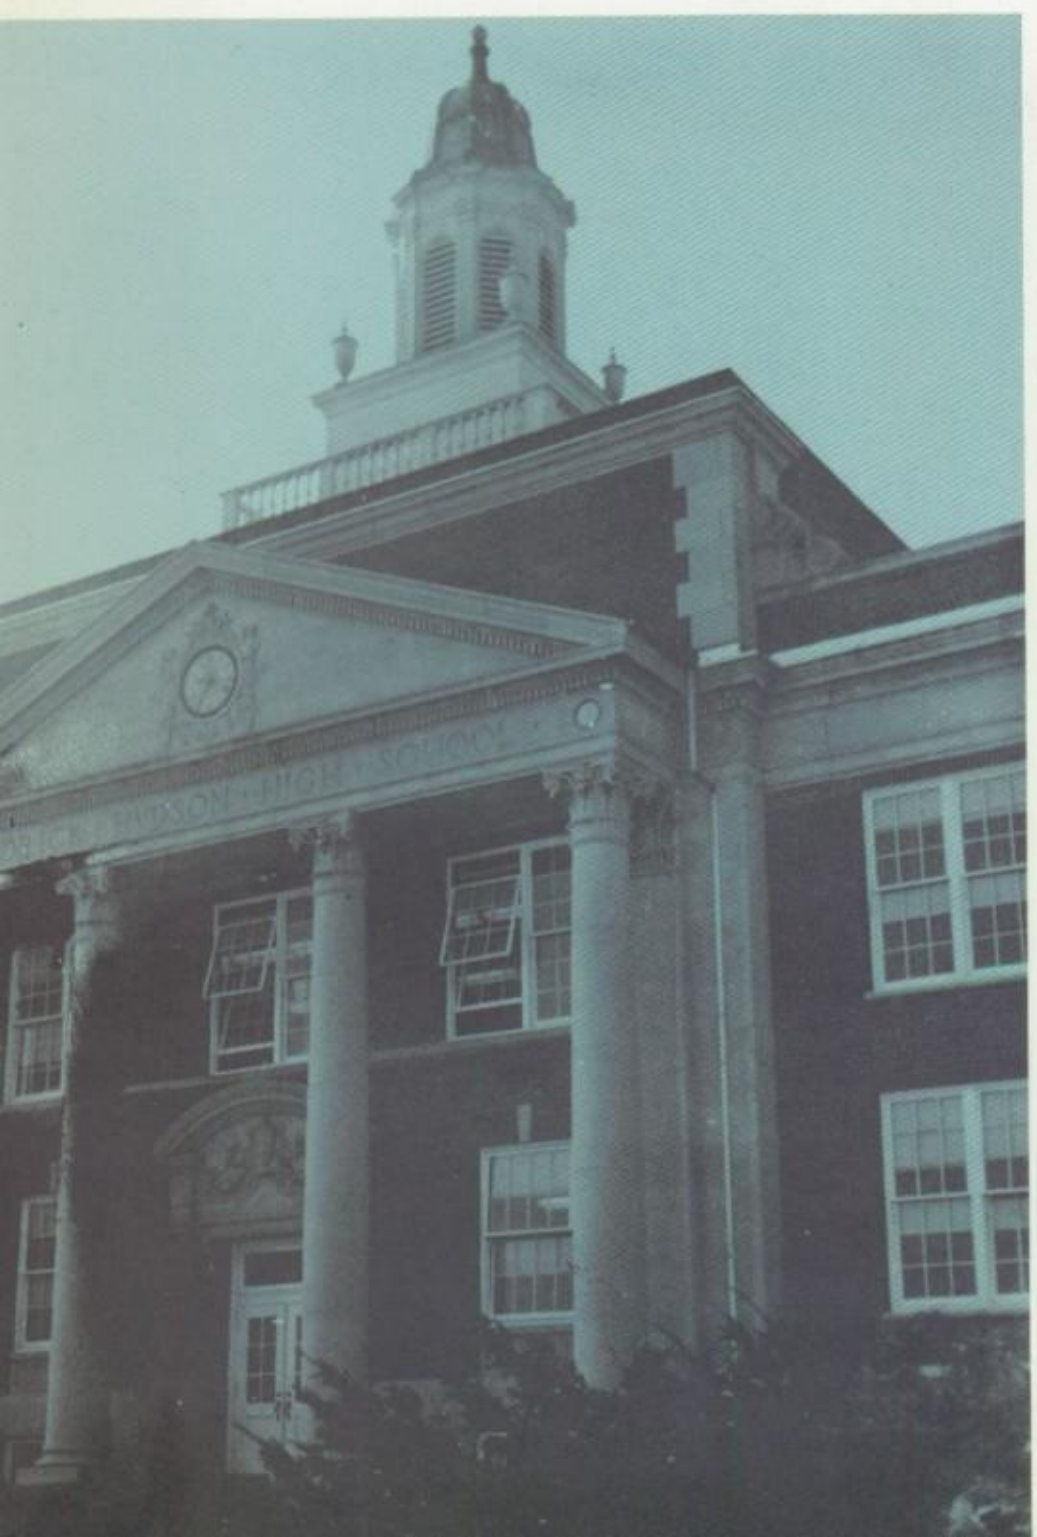
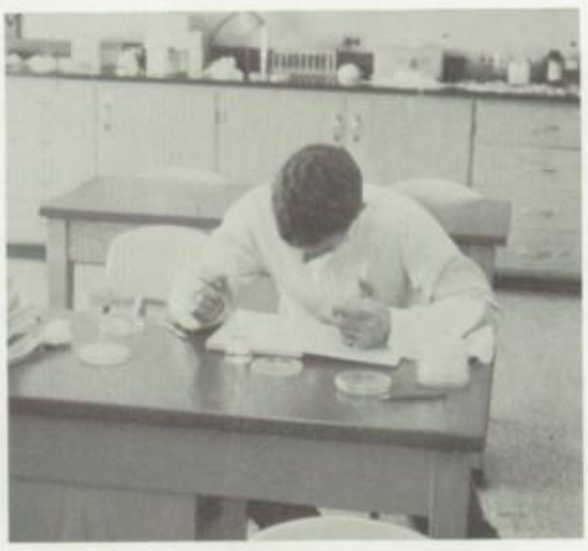
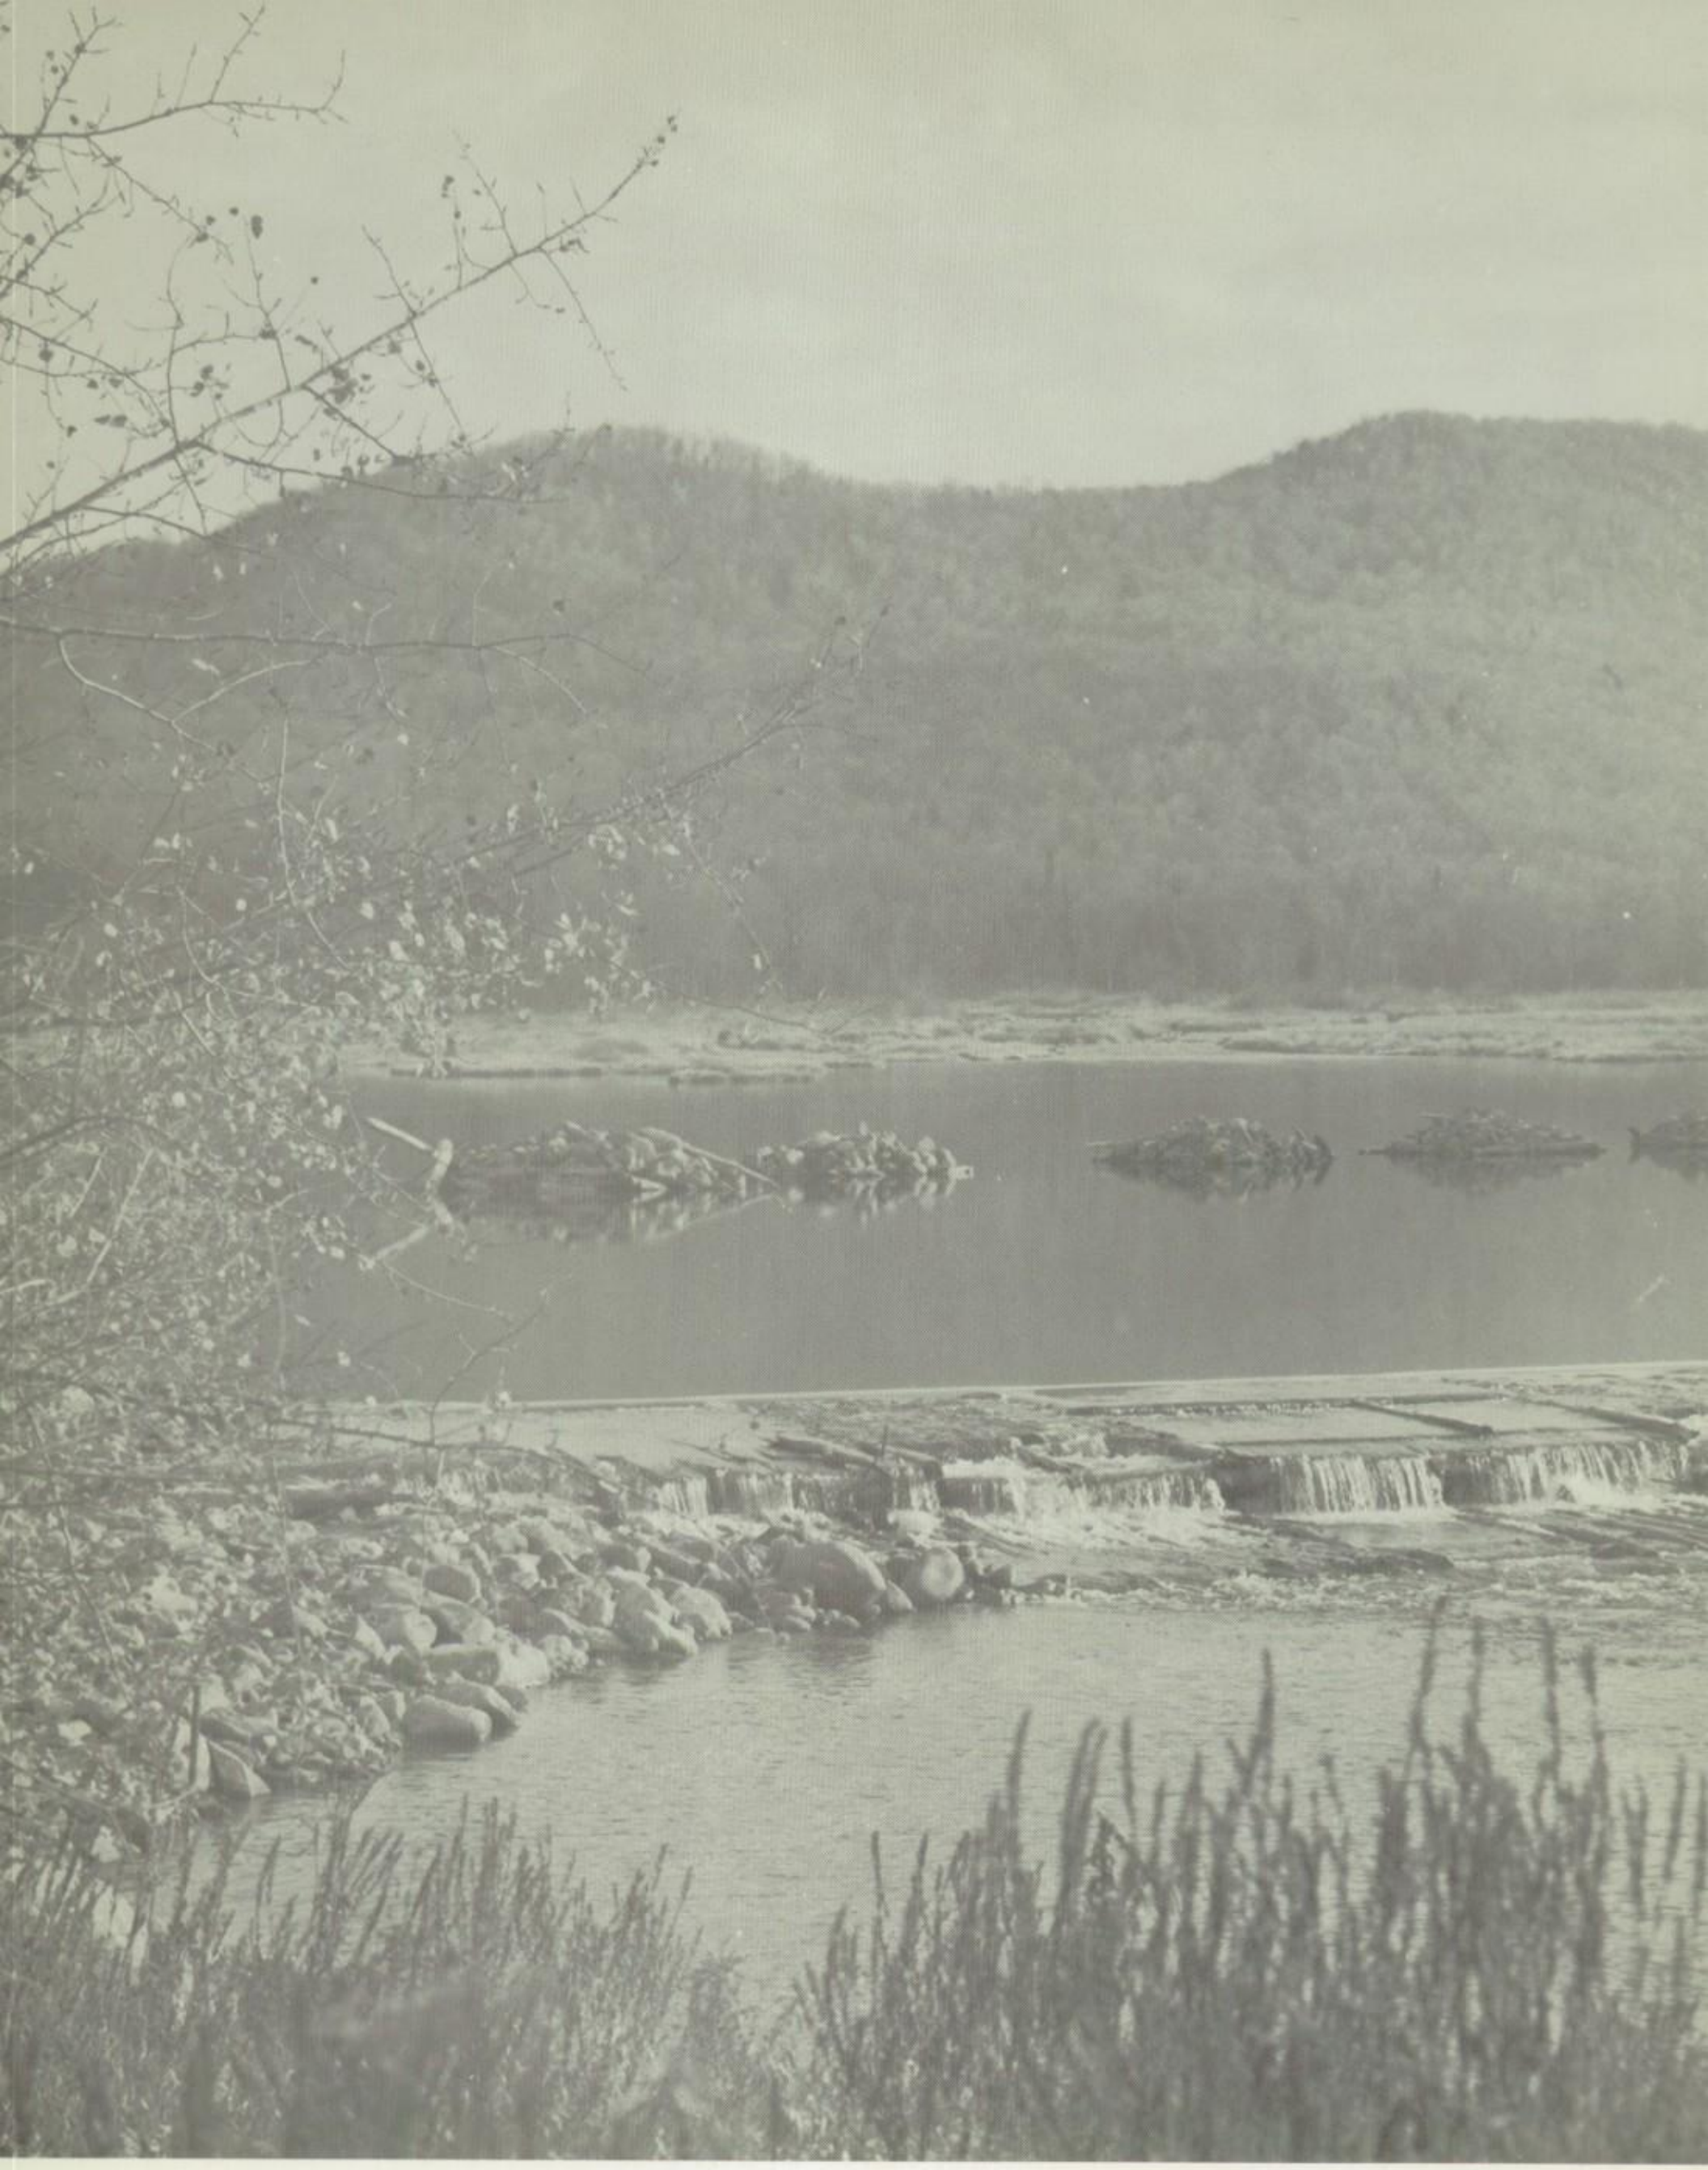
Education
has always played an important role
in the history of mankind.
Without the knowledge and courage
to delve into the realm of the unknown,
the evolution
and development of this world
would cease.
Knowledge
is life's gift to man,
the fruits of his labors.





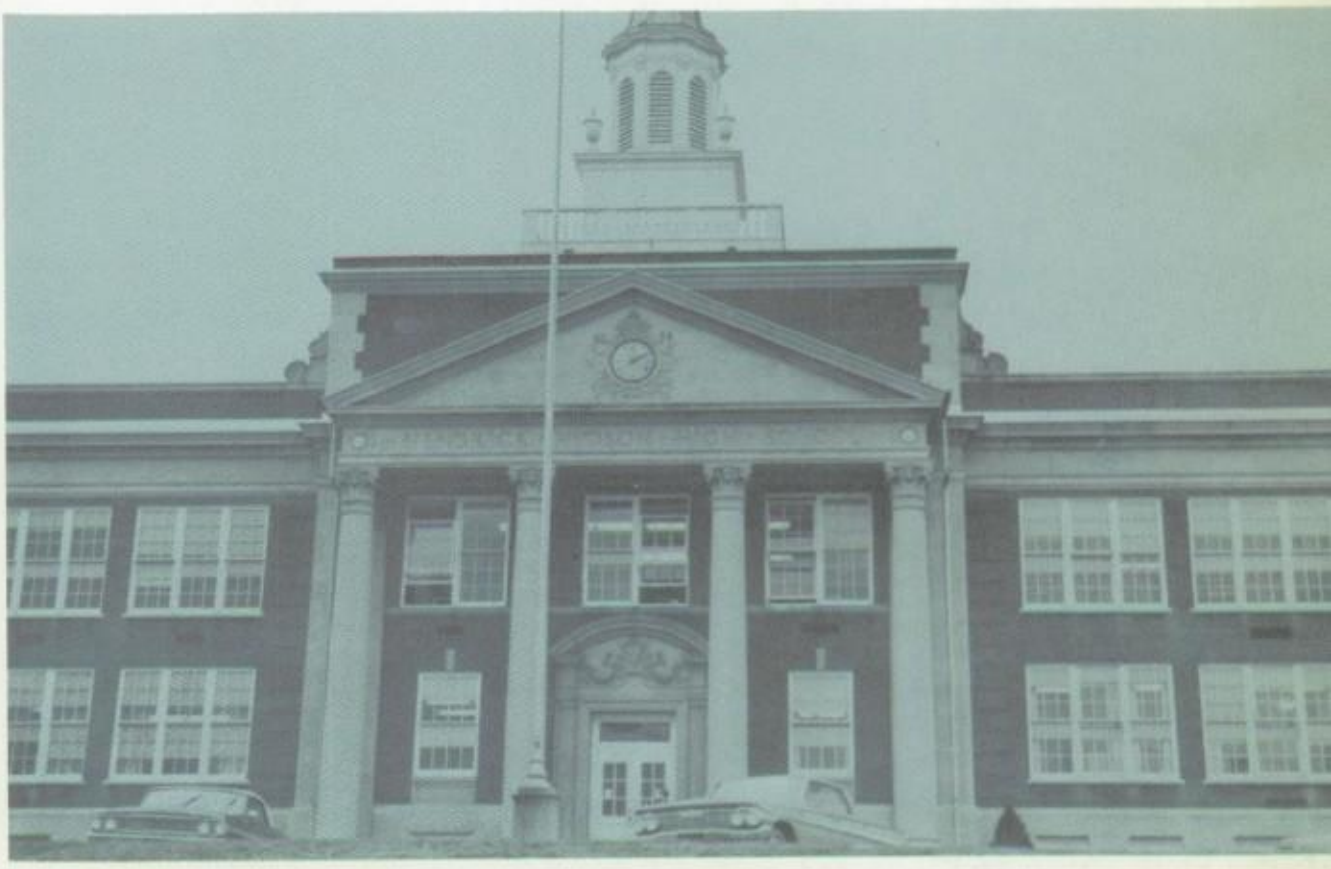
The love of wisdom
is the love of life and mankind.
To comprehend
the mysteries of life,
we must accept its challenges.
Wisdom
exalts a nation
for it is an honor
for men to seek knowledge,
truth, and understanding.

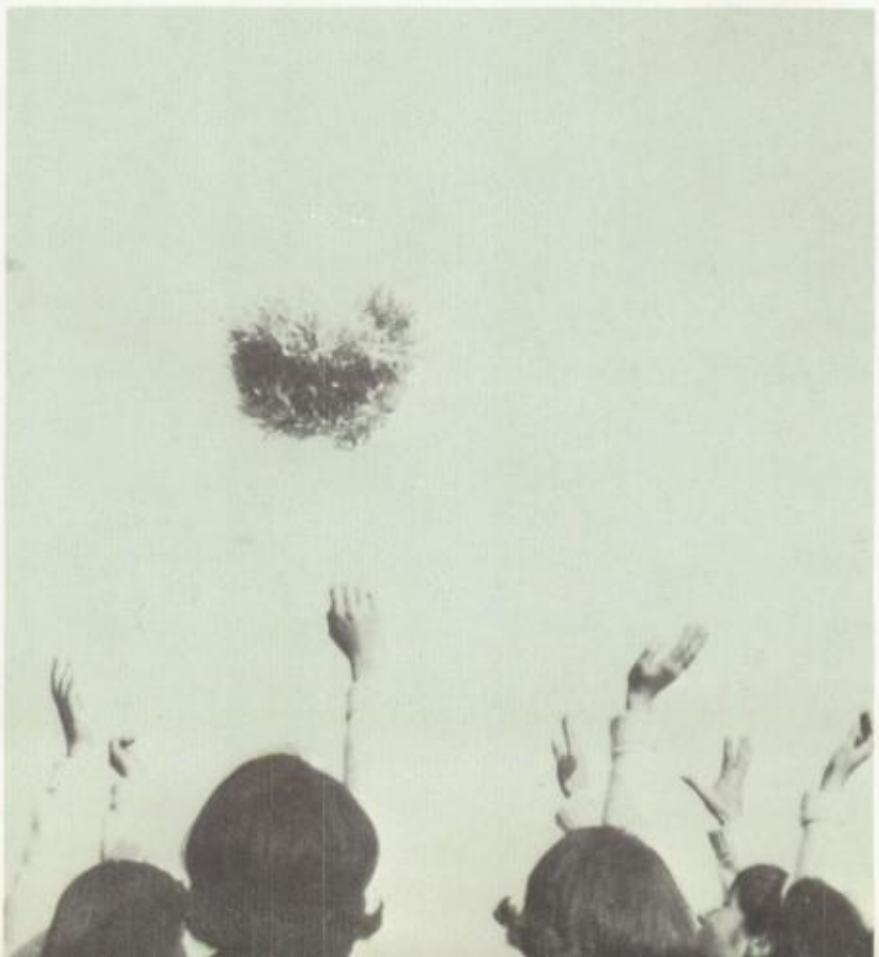
Wisdom, Instruction, and Understanding
Form the Foundation of the Future

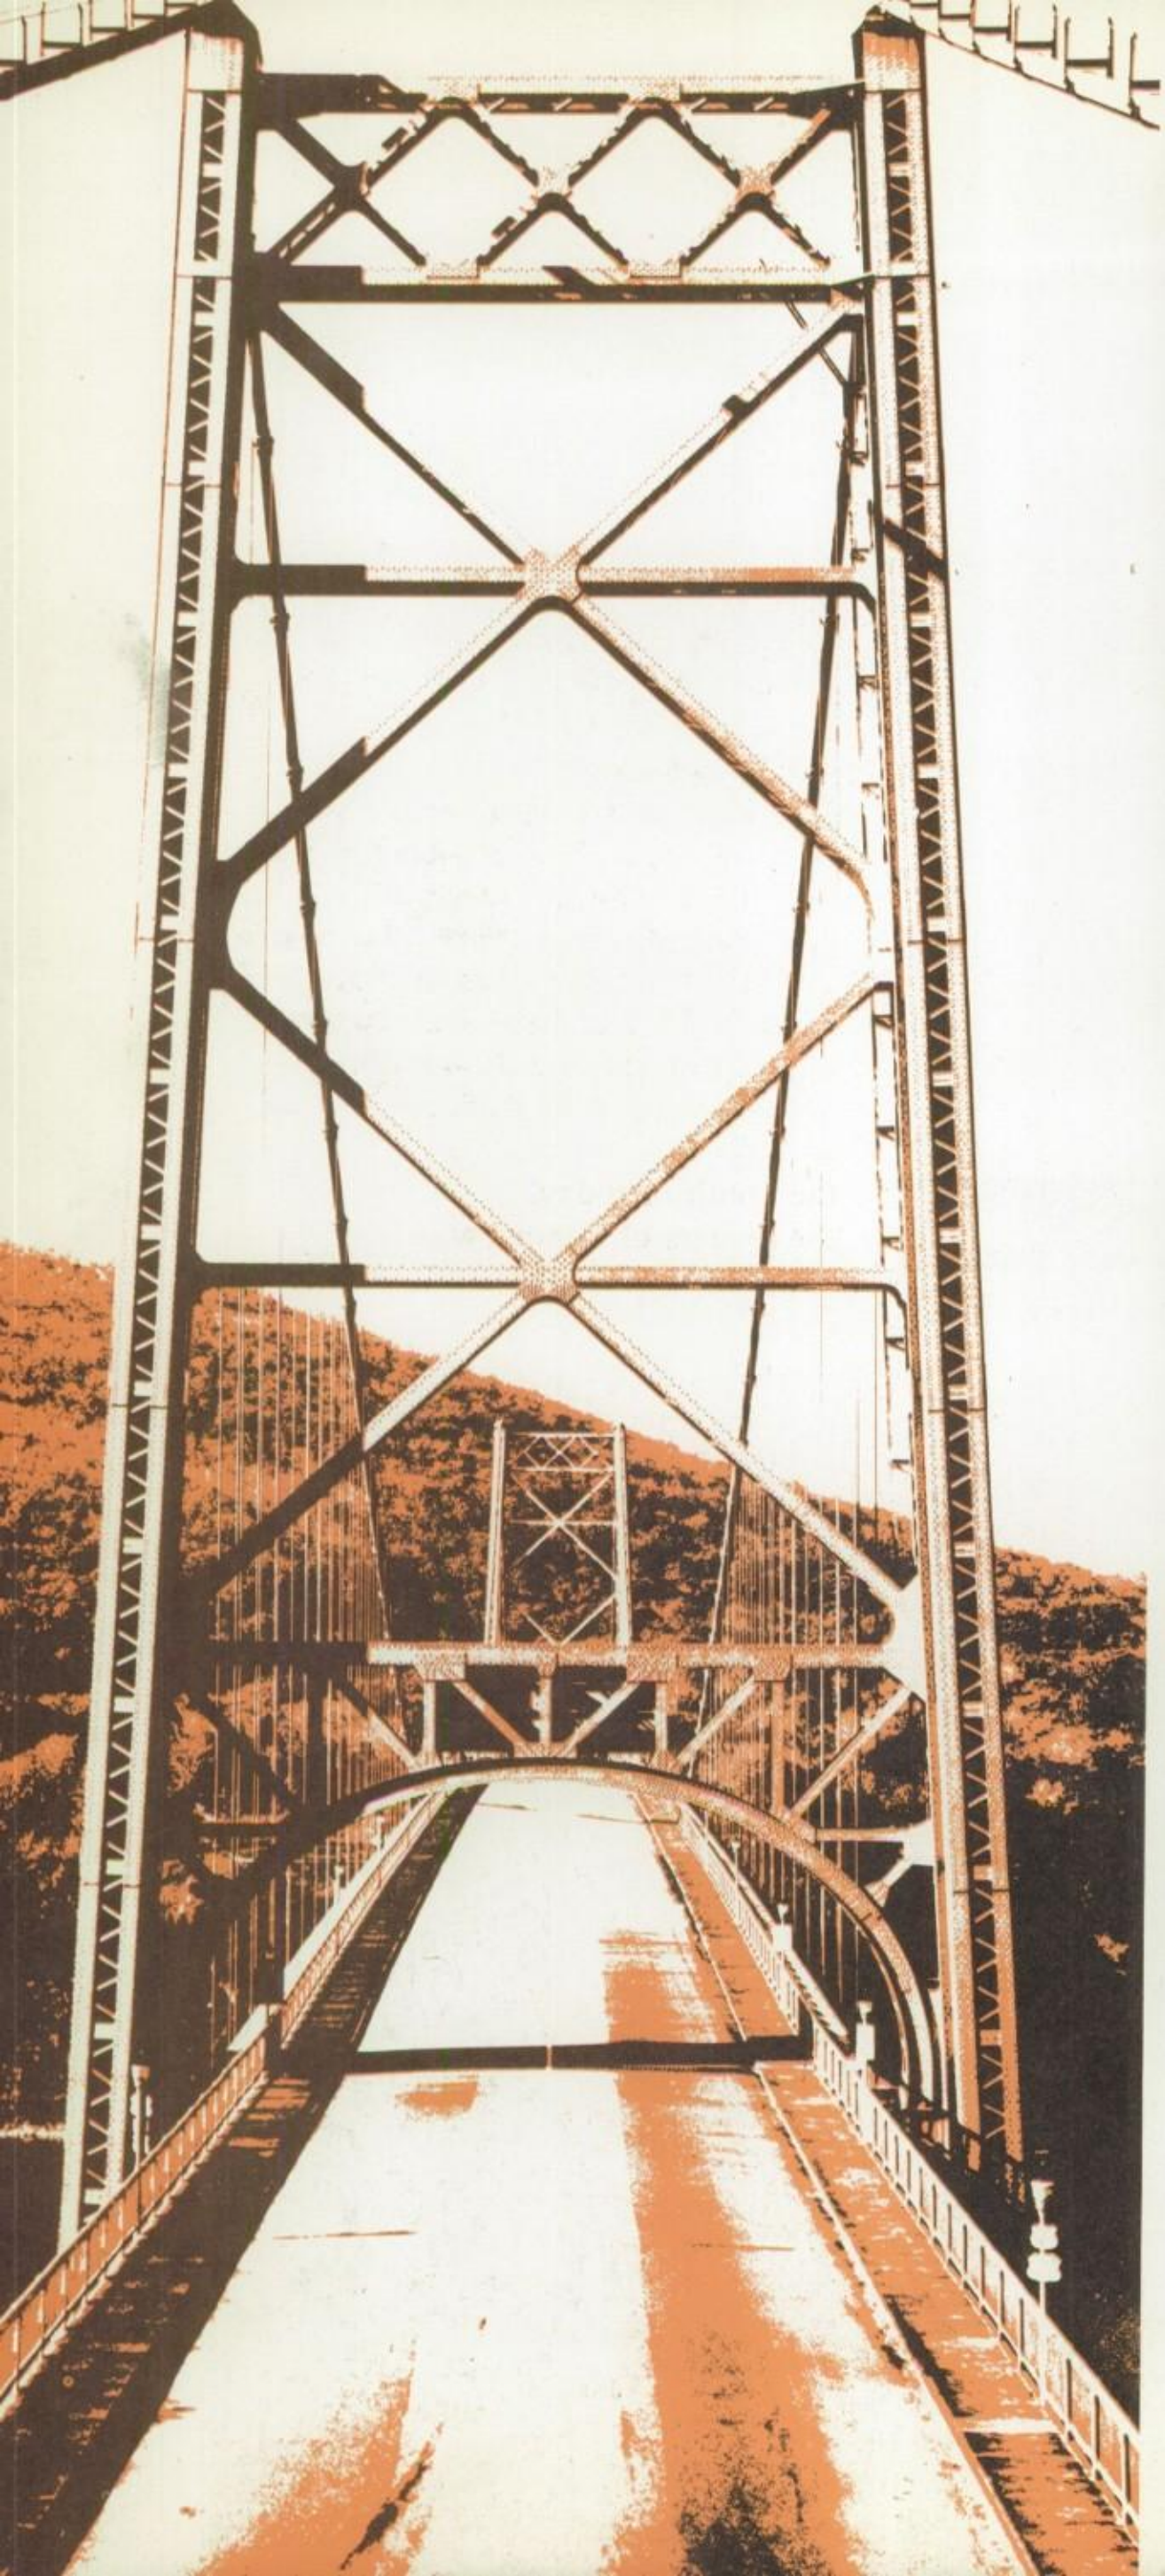


Our School Stands as a Sentinel.

Our high school
is a mirror of history
and reflects our development
and maturity.
The foundation of our evolution
is a constant search for truth and understanding,
for knowledge
is a shield against falsehood and ignorance.
Hendrick Hudson High School
safeguards our future
by offering a fine education
to those who strive for it.



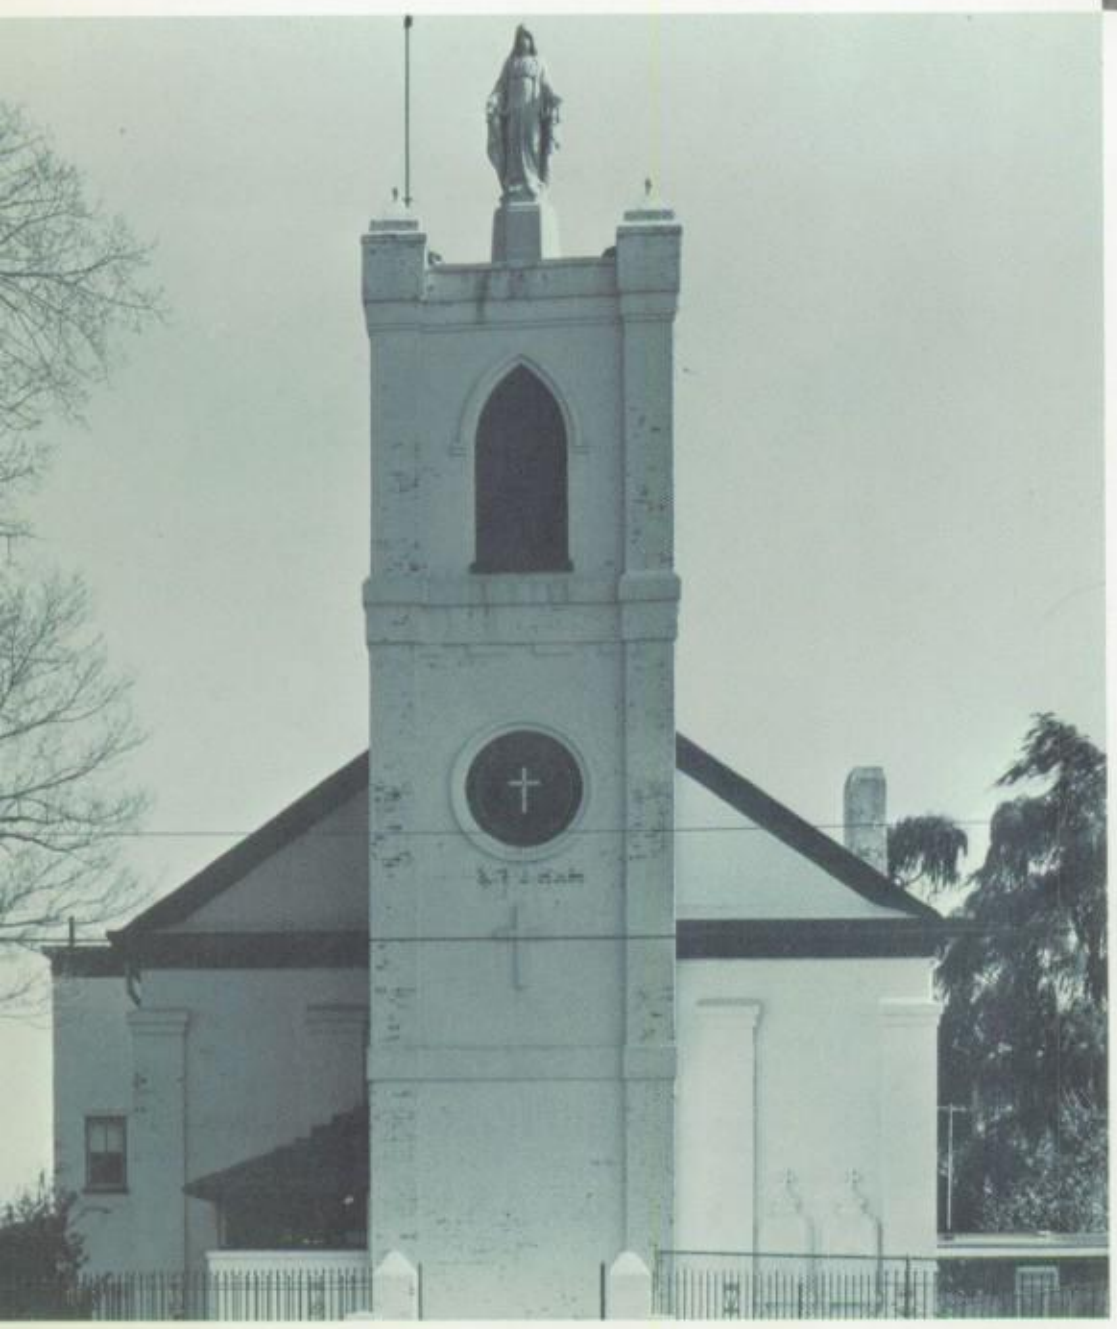




The Glory of a Nation is the Promise of its Youth

The glory of a nation rests
on the ability of its youth to assume
the responsibilities of
world leadership.
The tower of strength is the pillar
of knowledge, the messenger of peace.
Man's yearning for peace
and understanding among the peoples
of the earth exemplifies his hope
for a future free from the dangers
of annihilation and destruction.
This hope must be fulfilled
by us,
the youth of today,
the leaders of tomorrow.

Teachers Stimulate the Search for Truth and Knowledge



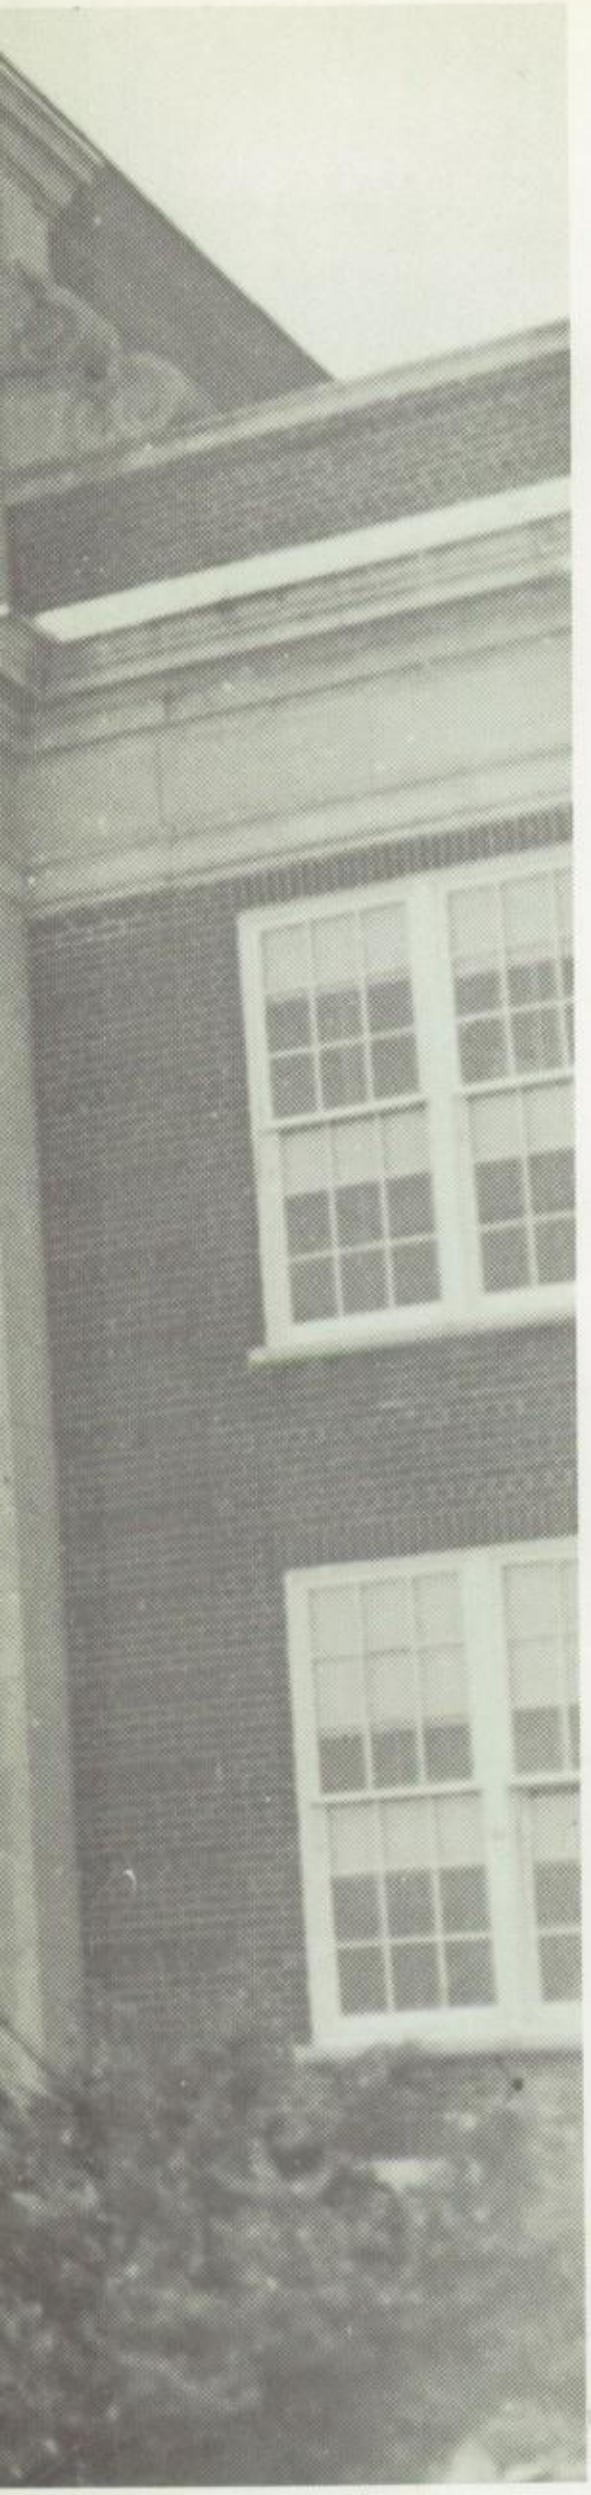
The world of knowledge
is a vast labyrinth.
With the guidance of
an experienced teacher,
however, the student is able
to seek his own path
toward understanding and fulfillment
The wisdom and instruction
of the teacher illuminate
the way for future exploration
and discovery in the
realm of the unknown.

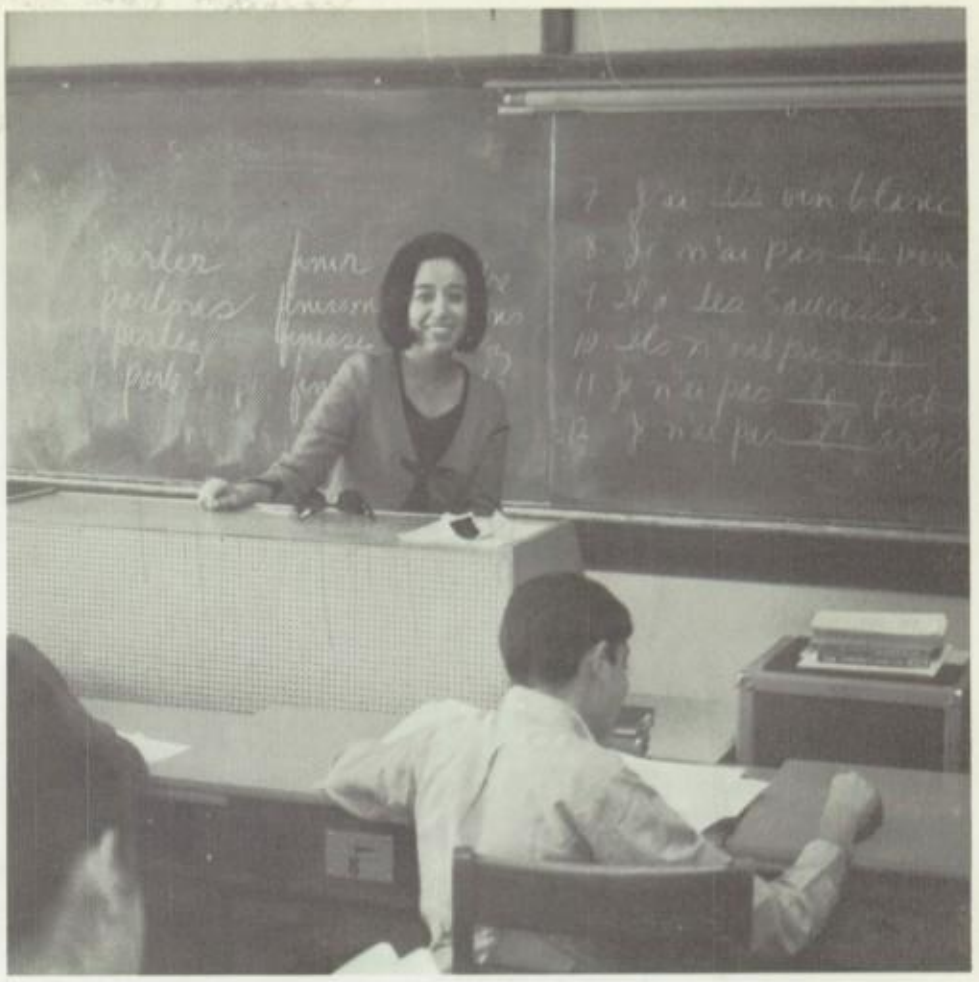
—*Life is a Challenge*

"One generation passeth away,
and another generation cometh;
but the earth abideth forever . . .
The sun also ariseth,
and the sun goeth down,
and hasteth to the place
where it arose . . .
The wind goeth toward the south,
and turneth about unto the north;
it whirleth about continually,
and the wind returneth again
according to its circuits . . .
All the rivers run
into the sea;
yet the sea is not full;
unto the place from whence
the rivers come,
thither they return again."

—Ecclesiastes

FACULTY

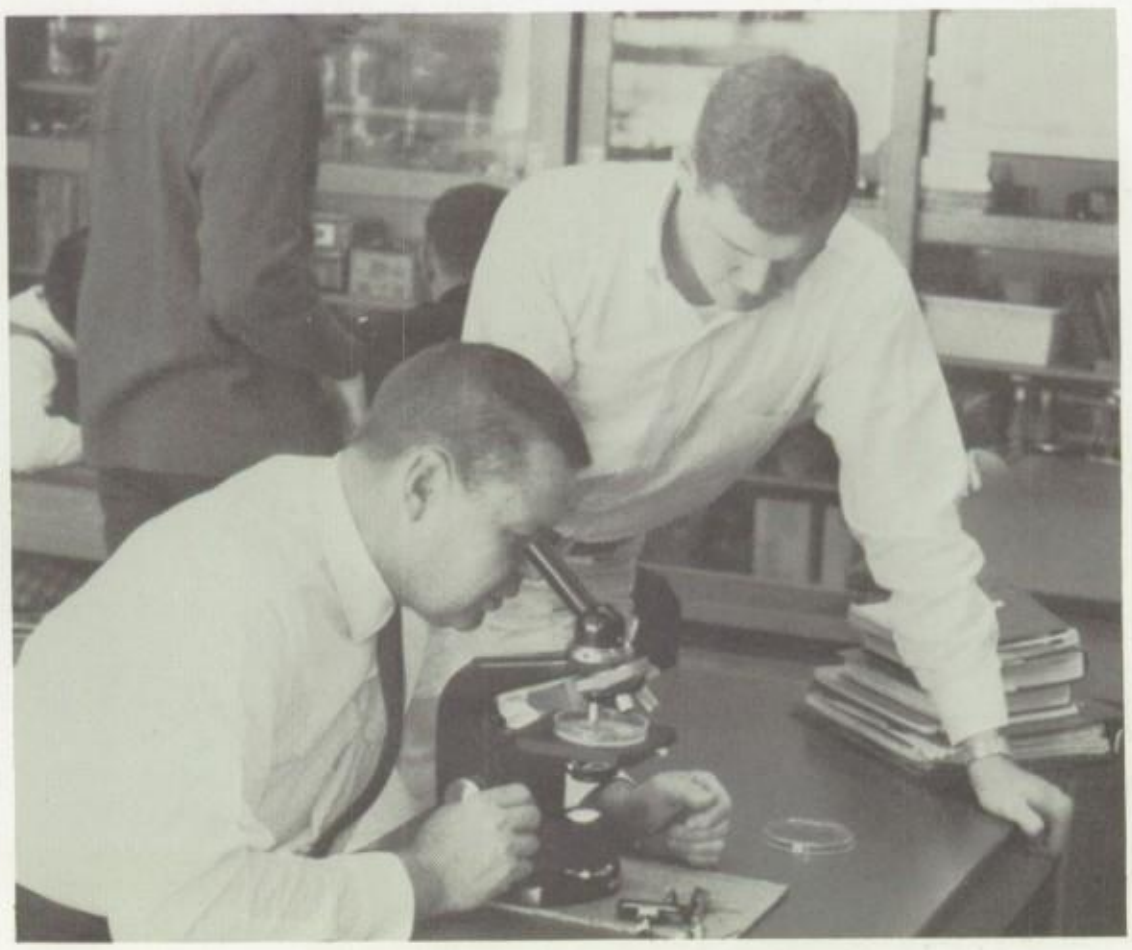




THE FACULTY

For the Class of 1967, the voyage through high school has ended—we have reached the mouth of the river of life. A vast expanse of ocean lies before us, and expanse unknown and uncertain, but fortunately not uncharted. The direction we choose will be the correct one, for we have received a firm foundation of knowledge from our teachers.

Our teachers have prepared us for the future by stimulating our search for knowledge. They have enhanced our interest in exploration and discovery, always encouraging investigation and research. Their dedication and resourcefulness have certainly proved worthwhile.



Thomas Jenkins
District Principal

As a newcomer in your midst, the graduating class of 1967 will always have a special significance for me. You, too, are commencing a new life—the beginning of new worlds to conquer, the end of a rich and profitable education which will be recalled many times with a laugh, a tear and a memory.

As you go your different ways, few of you will recall better times than your high school days. As you flip through these pages in the years to come, you will recall the meaning of Hendrick Hudson even more clearly then than now as a time, compared to no other in your life, of closeness to your school, to your teachers, to your principal and to your friends.

We have learned from each other. Each of us will be a different person for having known the other. While I knew few of you well, your success has brightened my first year here.

George Kiefer
High School Principal

To the Class of 1967:

To you, the fortieth graduating class from Hendrick Hudson, goes the distinction of having the largest graduating class in the history of Hendrick Hudson High School. Your six years came at a time when your school was growing, not only in number of students and faculty but in stature. In this you have played a major part.

Since this is written months before publication and space is limited, only a few of your many achievements can be mentioned. Class spirit and school spirit embodied in an aspiration for excellence has been exemplified in the Class of 1967. I express the plaudits of many when I bow to your achievements in music, drama, debate, athletics and in the less spectacular areas of the classroom and laboratory.

The spotlight has remained on many student activities whose continued excellence has come to be taken for granted. Some deserve particular commendation as having reached the highest point of success during your senior year—the football and wrestling teams, the debate successes, the scores on the Regents Scholarship Examinations, and the outstanding record in local essay contests. The spring season will extend the list, I am sure.

You members of the class of 1967 have reason to be proud of the part you have played in helping to build a better Hendrick Hudson. May I extend to each of you my sincere best wishes for continued success and happiness in future endeavors.

UNDERCLASSMEN

A placid stream, splashed with sunlight, glides silently onward. It moves as a child does: steadily gaining strength, growing, piercing new horizons. The stream becomes a river, brimming with strength.

We are like the river. We too have a beginning. The tide of our lives starts as a stream. The freshman are the stream.

SPORTS

A raindrop
cannot wear away a mountain. But our rivers
can and have erased mountains and dug
canyons in the landscape. Strength and
power come from union in a river or a team.
Cooperation is essential if the team

ACTIVITIES

(62)

All the joy of escape
From study to entertainment,
All the dazzle of footlights,
All the thrill
Of holding an audience,
All the power of a debater
Lifting his hearers
From the monotone of commonplace,
The indomitable will to win,
To dunk a basket,
To pass the baton,
Or execute that split jump,
The glory of being
Creatively spattered with paint,
The smart crispness
Of a band uniform,
The free expression,
The stimulation,
The interest,
The experience,
The fulfillment,
The adjustments,
The environment,
The participation,
The love for our school,
Our fellow students,
What we stand for,
And what we are.

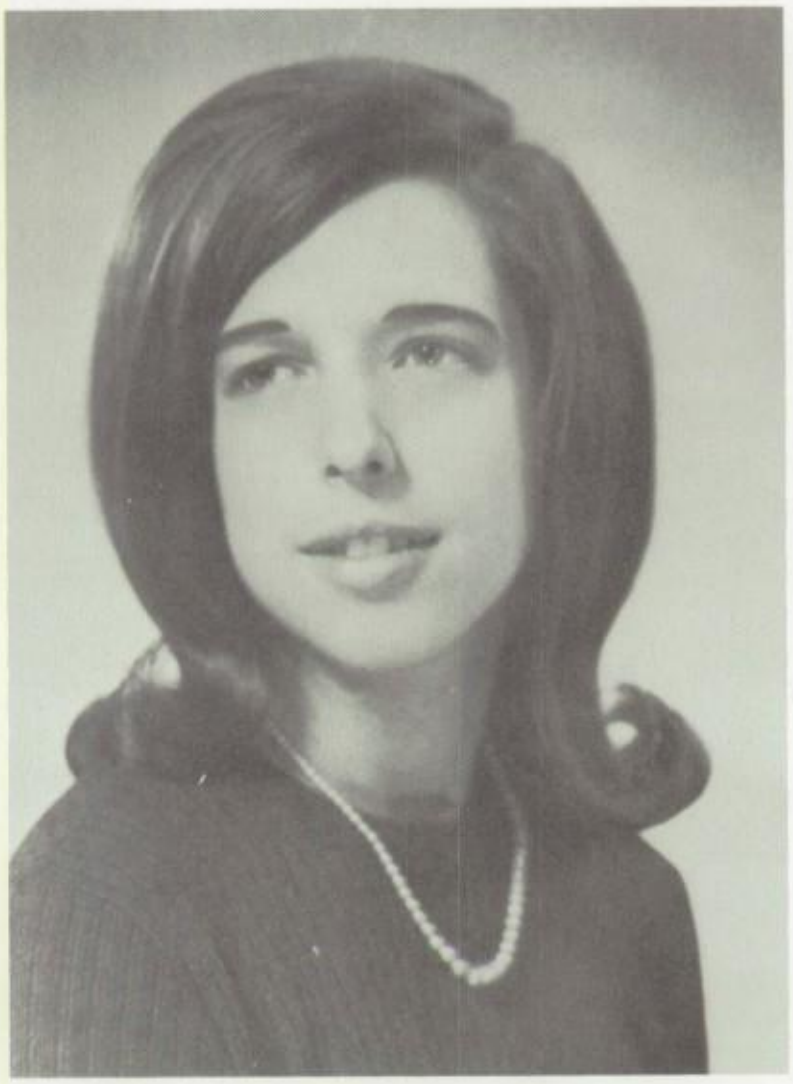
IN MEMORY



Marian Doris Merz

"O thou that from thy mansion
Through time and place to roam,
Dost send abroad thy children,
And then dost call them home . . ."

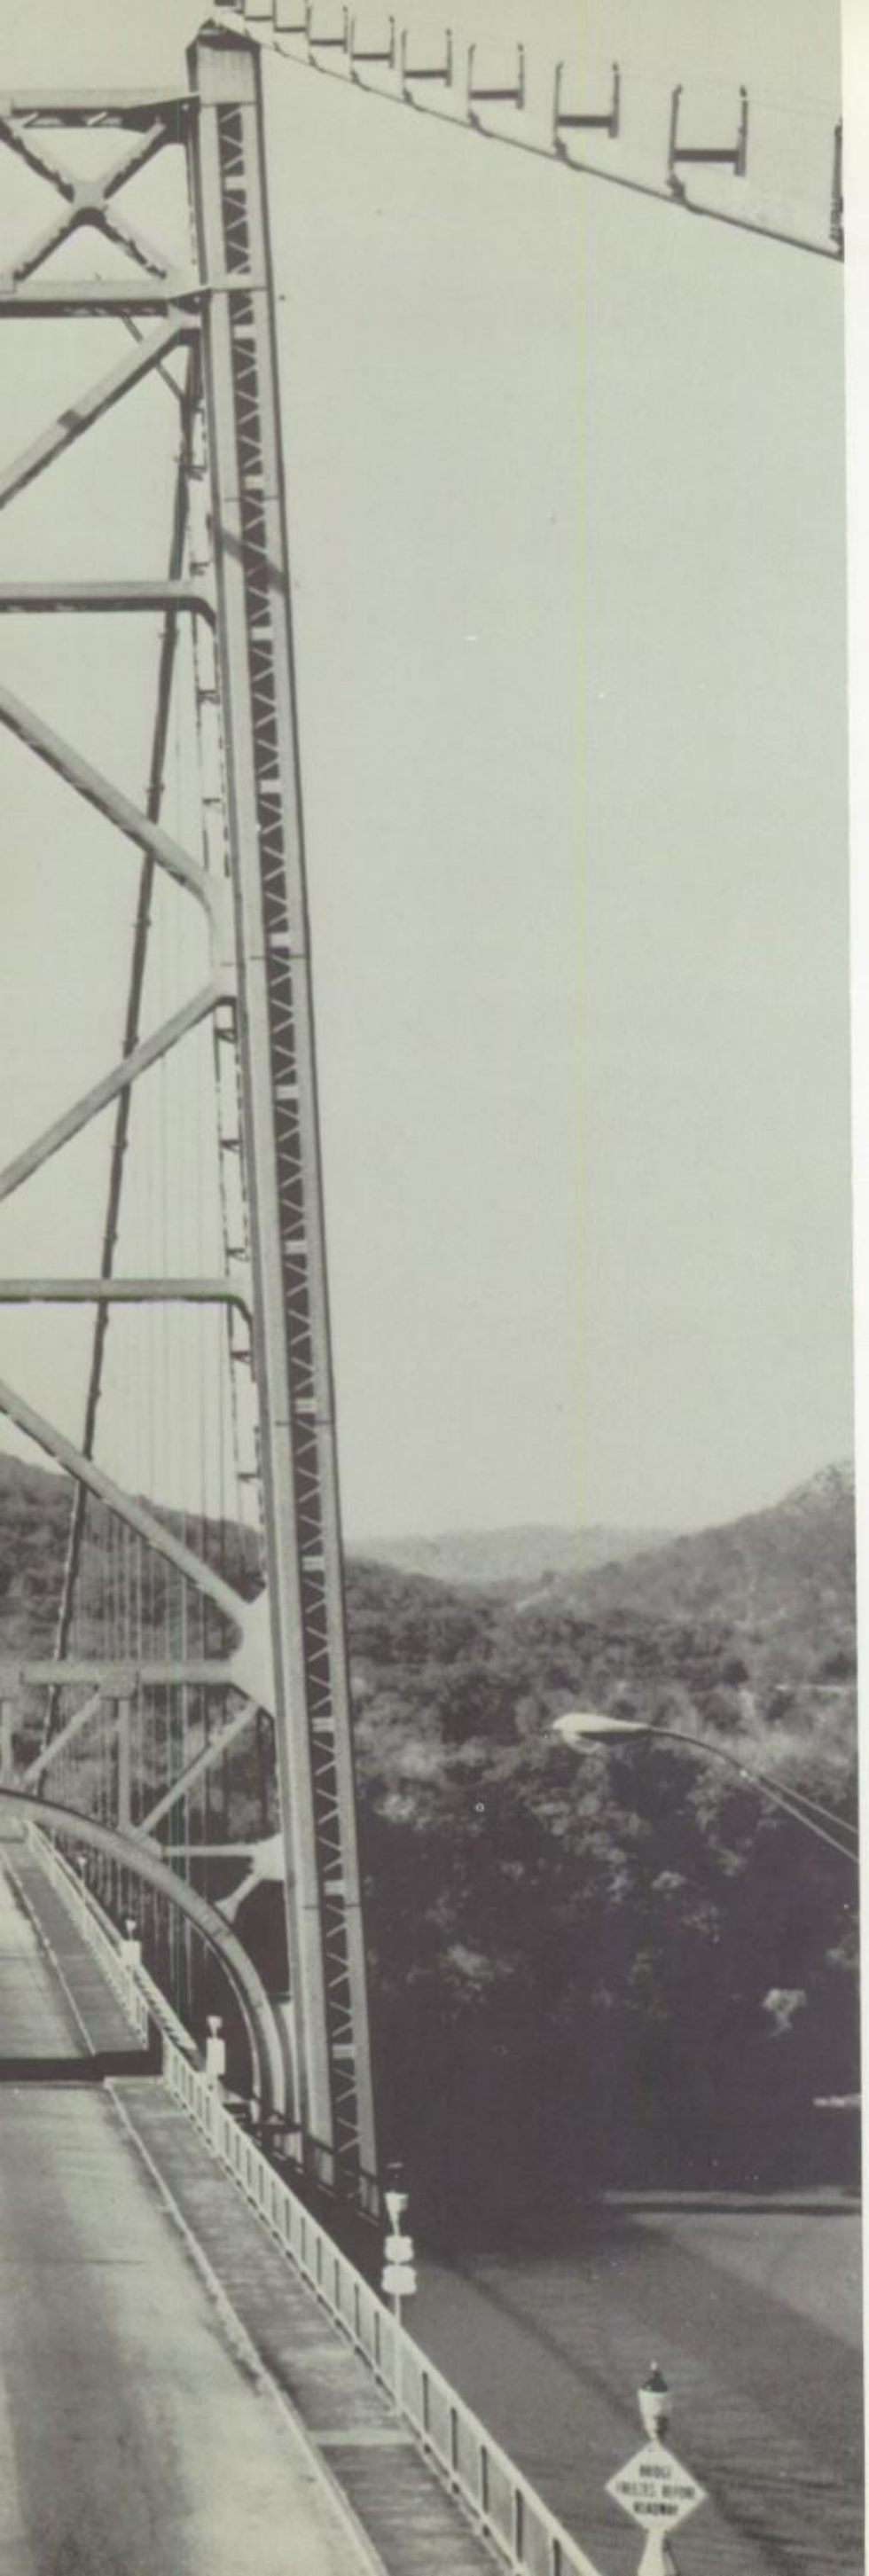
SENIORS



The majestic Hudson has its
beginning as a meek brook,
brickling forth playfully,
inquisitively. As it moves toward
its mouth, it grows
and expands its banks
as well as its usefulness.
The meek brook is now
a mighty torrent,
surging forward
with strength and purpose.
Finally, the Hudson leaves
the confinement of its banks
and enters the boundless sea.
Thus reigns the course
of our lives.
We, too, are playful
and curious in our early years,
anxious to learn and discover life.
As we course through school,
our knowledge
of the world broadens,
as does our realization
of our purpose in that world.
Finally, we are ready
to leave the security of home
and school and become tiny,
individual droplets
in the vast sea of life.
Our new course
will not be an easy one.
We will have to prove ourselves
and meet the demands
of an advancing society;
but we have been well-conditioned
to meet these trials
and overcome the obstacles.
Several tributaries have added
to our knowledge and purpose.
Our parents entered first
as the main tributary,
guiding us onward
and feeding us
our earliest knowledge.
In school, our varied experiences
joined the mainstream,
adding to our maturity.
Our teachers have also proved
to be important factors
in the shaping of our minds
and they have aided us greatly
in deciding what courses to pursue
after our graduation.
High school has severed us well,
leading us from adolescence
to adulthood.
The last six years have given
us a preview of what we will
encounter in the future.
Now we must turn our course
to meet the challenge
of the future.

What is a senior?

He is a person who is always where the action is . . .

Dear Lee
To a great
kid even though
we had a few fights
overall we were always
good friends. I hope you
keep running it is fun to run
Oh yeah, I'm a senior
can beat the world record in
next year. Good luck
Bob
(Mars)

Lee,
If you ever
away I'll never
speak to you again
not that I'd have
a choice. But remember to stay near
we need someone
track manager;
you'll be available
late to see
to stay
your

JOHN JAY

Lee,
Hup or running
and I'm sure you'll
be one of the best some day.
I don't think you'll need
it, but Good Luck.
Jerry

Lee,
Good luck
on cross country
next year because
the way you
ran this year
you'll need it.
And good luck
on your exams.
Frank

Lee
One day very soon
you are going to
turn out the best
track man Hen-Hud
ever had. Good luck.
